It Is Grinding on Deficiency Bill and Tariff For Philippines.

OUTLINE OF THE WEEK'S CALENDAR.

President Turned Over to Congress Report of Canal Commission on Panama Company's Proposition to Sell — Washington News.

Washington, Jan. 20.—Soon after the senate convened Monday Mr. Lodge (Mass.), chairman of the committee on the Philippines, reported the house bill temporarily to provide revenues for the Philippine islands. He gave notice that at 2 o'clock Tuesday he would call up the bill and make a brief statement concerning the measure. "This is a bill," said Mr. Lodge, "which in the judgment of the majority of the committee on the Philippines requires immediate attention."

The report on the Philippines tariff bill, with amendments, was ordered by a strict party vote. The bill was amended as heretofore agreed upon, being a reduction of 25 per cent on goods coming from the Philippines to the United States, with an additional reduction of the export tax charged in the Philippines on products sent out of the islands to the United States. The Democrats presented a substitute. It provides that there shall be temporary free trade between the United States and the islands; that the United States shall continue to occupy and govern the islands until a stable government has been established, when the president shall direct withdrawal from the islands, the United States to retain such military and naval stations as are deemed necessary. The Philippines are declared by the minority bill to be foreign territory from the passage of the act.

Mr. Rawlins (Utah), on behalf of the minority, gave notice that upon the conclusion of the remarks of Mr. Lodge Tuesday he would submit some statement in support of the substitute.

A house bill conferring upon Mrs. Ida S. McKinley, widow of the late President McKinley, the mail franking privilege was called up by Mr. Mason, chairman of committee on postoffices and post roads and passed.

Mr. Culom (Ills.) introduced a bill to prevent the transportation of deleterious food and drinks, and to provide for the appointment of a dairy and food commissioner. He said the measure was sent to him by very good men, but that he knew very little of the matter himself. He assumed, however, that it was a proper bill and he introduced it in order that it might be considered by the committee.

Mr. Frye (Me.) reported the ship subsidy bill agreed upon by the committee on commerce. Mr. Vest (Mo.) gave notice of dissent on the part of the Democratic members, and also of an intention to file a minority report.

Mr. Nelson then called up the bill creating a department of commerce, and answered various criticisms that have been made regarding it.

Pension For Mrs. McKinley.

The senate committee on pensions ordered a favorable report on Senator Hanna's bill to grant a pension of \$5,000 a year to Mrs. Ida S. McKinley, widow of the late President McKinley.

The president transmitted to congress the supplemental report of the isthmian canal commission on the proposition of the Panama Canal company to sell its property to the United States for \$40,000,000. The commission unanimously reports that, after considering the changed conditions that exist and all the facts and circumstances upon which the present judgment must be based, the commission is of the opinion that the most practicable and feasible route for the isthmian canal, to be under the control and ownership of the United States, is that known as the Panama canal route. The report is signed by all the members of the commission. It was accompanied by a letter of transmittal to congress from the president.

In the senate the house Philippine tariff bill will be given continued consideration until finally disposed of. There is a general acquiescence of Republican senators in this program. There are other important measures to be presented at the proper time by administration senators, but the present agreement is to pass the Philippine bill first, as being most important. A long discussion is expected by the Democrats. The Democratic leaders say they do not expect to be able to defeat the bill, and disclaim all intention to delay a vote unnecessarily, but they say frankly that they consider that it affords an opportunity for the presentation of their view of the entire Philippine question which they can not afford to let pass. Senator Lodge will open the discussion with a brief speech Tuesday, in which he will discuss the

merits of the bill and also the necessity for early action. Many senators on the Democratic side are expected to be heard before final action, and the prediction is freely made that a vote will not be obtained within a month. Senator Frye probably will not attempt to secure consideration for the pending ship subsidy bill for the present, and probably not until after the Philippine bill shall have been disposed of. The report of the committee on interoceanic canals is expected later in the week, but may be delayed. Senator Nelson will also diligently endeavor to secure the passage of his bill for the creation of a department of commerce. The opposition to it probably will be continued for the present. During the early part of the week Senator Culom will address the senate on the treaty-making power of the president. The speech is expected to have a bearing upon the reciprocity treaties.

The senate committee on interoceanic canals will not meet to further consider canal bills until the return of Senator Hanna, chairman of the committee, who is on a business trip to Cleveland, and who desires to be present at the consideration of the Hepburn bill and Panama proposition.

In the House.

The house immediately after it met went into committee of the whole and began consideration of the urgent deficiency appropriation bill, which was reported to the house Saturday.

Mr. Cannon said the emergency appropriation of \$40,000 for the state department was for the entertainment of Prince Henry of Germany. He said it was eminently proper for a great nation to provide proper entertainment for the representatives of a great people beyond the sea which "had given us so much of our bone and brawn and brain." (General applause.)

Champ Clark of Missouri wanted to know who was going to pay the expenses of the "extraordinary aggregation of talent, consisting of Whitelaw Reid, Captain Clark and General Wilson, young Pierpont Morgan and young Wetmore, who are going to London to see his sacred majesty, King Edward, crowned." He said we were paying Prince Henry's expenses, and it was a poor rule which would not work both ways. He was glad to entertain Prince Henry because it would give the lie to the Anglomaniacs who were trying to foster the idea that we were in league with England against Germany.

Republican members of the house ways and means committee held a private meeting Monday to consider what should be done toward reducing the war revenue taxes. This is the first formal step taken by those who will frame a reduction measure to map out a line of action. The sentiment among Republican members of the committee is said to be quite general in favor of a reduction of revenue taxes.

In the house the bills ready for consideration are not of sufficient importance to secure definite time in advance, except in the case of the Hill bill for the exchangeability of silver and gold. It will be some time before opinion is sufficiently matured on this measure to induce the leaders to set a time for consideration. The Democratic members of the house committee on coinage agreed on a minority report on the bill directing the secretary of the treasury "to exchange gold for legal-tender silver dollars," and the report will be presented to the house by Mr. Shafroth. The report takes the position that the passage of the bill is certain to produce financial disturbances.

Jeweler Murdered.

Rochester, N. Y., Jan. 20.—Beia A. Brown, 65, a prominent manufacturing jeweler, was found murdered in his salesrooms here. The assassin had apparently attacked the old man from the rear, striking him in the back of the head with a hammer, crushing his skull. His legs were tied together and he was gagged. From the position of the body in front of a safe the conclusion was reached by the police that the murderers had placed Mr. Brown before the safe, which was locked and which contained thousands of dollars worth of diamonds and jewelry, and had tried to force him to work the combination. No goods are missing.

Sugar Conference.

Brussels, Jan. 20.—The international sugar conference reassembled Monday. British delegates definitely announced Great Britain's intention to impose a countervailing duty on sugar unless the bounties were withdrawn. The conference adjourned until Wednesday in order to allow the delegates time to communicate with their respective governments on this and on other developments which occurred during the recess.

Syracuse, Kan., Jan. 20.—Passenger trains Nos 6 and 7 of the Santa Fe road collided head on 15 miles east of here. One report says four cars were burned and no passengers injured, while another version is that the east-bound train is entirely destroyed and many passengers are dead.

WITH A FIRMER HAND

General Bell Finds It Necessary to Deal With Filipinos.

CONDITIONS IN BATANGAS PROVINCE.

Natives Ordered Into Concentration Camps on Penalty of Confiscation and Destruction of Property. Report to War Department.

Washington, Jan. 20.—Having failed after two years to subdue the Filipinos in Batangas province, which lies just south of Manila, and having satisfied himself that lenient treatment of the Filipinos is productive of no good results, General J. F. Bell, the military commander in that province, has determined on enforcing the war in the most vigorous and determined fashion, involving reconcentration, the application of martial law in all directions, and the unsparing pursuit and punishment of natives who act as spies.

All this appears from a long report to the war department just published. The reconcentration order is dated at Batangas, Dec. 8. In substance, it provides for the establishment of zones around the garrisons, into which the friendly inhabitants are to be required to come under penalty of confiscation and destruction of their property. This is said to be necessary to prevent the collection of forced contributions from the inhabitants by Filipino soldiers. The military officers are allowed to fix the price of necessities of life, and it is promised that the people may return as soon as peaceful conditions obtain.

This order is followed by a long circular by General Bell to his station commanders, commenting on existing conditions and giving them advice how to proceed, saying war continues because the most of the people, especially the wealthier natives, do not really want peace. He says it is regrettable that the innocent must suffer with the guilty, but the greatest good to the greatest number can be best brought about by putting a prompt end to hostilities. Therefore he directs the application of general order No. 100, in force during the civil war in the United States, which practically regards a Filipino soldier as a guerrilla and outside the pale of civilized warfare, and subject to the death penalty, wherever such native does not engage continuously in the war and observe all the rules of war. However, it is provided there shall be no executions without the approval of a superior officer. Commanding officers are specially enjoined to encourage young officers in hunting down the Filipinos, and it is pointed out that there is no just cause for exceptional caution or apprehension in attacking native bodies wherever found. At any rate, under existing conditions, legitimate chances should be accepted, says General Bell, as excessive caution will do the army incalculable harm. The best defense against the natives, he says, is to assume a vigorous offensive at once, and that to retire in the presence of the natives is hazardous and discouraging.

A special injunction is laid on the commanders to hunt down, through loyal spies, secret sympathizers with and contributors to the armed Filipinos, many of whom will be found among municipal officers. General Bell says that Malvar and other Filipino leaders have dictated elections of all town officials in Batangas and Laguna, and these town councils meet and adopt resolutions denouncing hostilities, while secretly informing the native forces that this is done under compulsion, and supplying them with information. Therefore General Bell declares neutrality should not be treated; that every inhabitant should be an active friend, or be classed as an enemy, and acts, not words, must be made the test.

Chief and most important among the hostile persons, he says, are the native priests. General Bell declares it is practically certain that every priest in Batangas and Laguna provinces is a secret enemy of the government and in active sympathy with the Filipinos. He orders that they be given no exemption whatever, but be brought to trial whenever sufficient evidence is obtainable, and adds that even in case of well-founded suspicion they should be arrested to stop their further activity. It is frequently impossible, he says, to obtain evidence against influential persons as long as they are at liberty, but once confined evidence is easily obtainable. General Bell declares that the apprehension and punishment of one individual official, wealthy man or priest is of greater importance than the punishment of 100 ignorant persons. The wealthy and influential, he says, are those against whom the most energetic efforts should be directed.

Chaffee on Philippines.

Manila, Jan. 20.—General Chaffee, in the annual report which has just

been issued, sums up the situation from the military point of view by saying that the provinces of Batangas and Laguna, in southern Luzon, and the islands of Samar, Mindoro and Cebu, constitute the disturbed area in which bodies of Filipinos in force are to be found. General Chaffee says the prolongation of guerrilla warfare is due to the physical character of the country and to the nature of the warfare carried on by the natives, who in the same hour pose as friends and act as enemies; to the humanity displayed by the American troops, of which the Filipinos take advantage; and to the fear of assassination on the part of those natives who are friendly disposed toward the Americans should they give the latter information concerning movements of native troops.

PRISONERS GOT AWAY.

Eleven Desperados Make Daring and Successful Dash For Liberty.

Tacoma, Wash., Jan. 20.—Eleven of the most desperate prisoners in the United States penitentiary at McNeil's island made their escape. It was the most daring and successful adventure of the kind ever attempted in this state, and the character of the men implicated makes it doubtful whether they will be retaken without loss of life. The men at large are W. D. Snyder, sent up from Idaho for robbery; James Campbell, Nome, pickpocket; Thomas Morton, Nome, burglary; Frank Ainsworth, Nome, larceny; Mike Williams, Spokane, counterfeiter; Harry Davis of Nome, Frank Moran (true name Ed O'Neill) of Spokane, James Moriarty of Spokane, and J. P. Stewart of Idaho, counterfeiters; Bruce Kenwright, Nome, manslaughter; James Carroll, Alaska, murder.

A hole in the wall of the brick cell occupied by Snyder and Davis reveals the method of escape. The wall is about a foot thick, and so is the floor of the cell, which is covered with concrete. The tunnel was dug at the junction of the wall and the floor, sloping outwardly until it formed a connection with the air-chamber, about two feet below and a foot outwardly from the corridor wall of the cell. Through this air-chamber the prisoners crawled about 40 feet to where it opened into the boiler room, the opening being covered by an iron grating. This obstacle was overcome by the use of saws, and the prisoners had then only to walk out of the back door of the boiler room across the yard and scale the board fence. A few yards from the prison grounds the dense growth of timber afforded them a safe retreat.

Frank Moran, alias O'Neill, sentenced from Spokane for eight years for counterfeiting, was captured by a squad of deputies who were patrolling the shore. He was about to swim to the mainland. There are 30 armed deputies scouring the island and two steam launches are patrolling its shore. A launch from the United States revenue cutter Manning has gone to the island with ten heavily armed marines, who will take part in the hunt.

Another Delivery.

Birmingham, Ala., Jan. 20.—Frank Duncan, a notorious safeblower under sentence of death for murder, and three other prisoners made their escape from the Jefferson county jail by sawing through numerous bars and cutting the lock off the outer gate of the prison yard. A reward of \$500 is offered for Duncan and \$100 for each of the others.

PATRICK ON TRIAL.

He Is Accused of Murdering a Texas Multi-Millionaire.

New York, Jan. 20.—Albert T. Patrick was called to trial Monday before Recorder Goff on an indictment charging him with the murder of William Marsh Rice of Texas, who died in this city Sept. 23, 1900. Rice was a millionaire recluse. He lived in an apartment house with his valet-secretary, Charles F. Jones. After his death Patrick took charge of the funeral arrangements and notified Rice's relatives in distant parts of the country. Before the funeral several checks signed with Mr. Rice's name were presented at the private bank of S. W. Swenson & Son and to the Fifth Avenue bank for certification. All were made payable to Patrick's order. Patrick produced a will signed "William Marsh Rice," under which almost the entire estate of more than \$5,000,000 was bequeathed to Patrick. An earlier will, dated Sept. 26, 1886, left the greater part of the estate to the Rice institute at Houston, Tex., and other educational establishments.

Morris Mayer and David L. Short, who witnessed what came to be known as the Patrick will, were indicted for forgery. Jones, the valet, also was arrested. He made a statement to the effect that Patrick killed Rice by administering chloroform, and Patrick was thereupon held for trial on the charge of murder.

A special panel of 200 talesmen was summoned from which to select a jury. When the case was called it was announced that the hearing of evidence would require at least a month.

MEETING OF MINERS.

Largest Assemblage of Men Who Toil in Bowels of the Earth.

CLASH WITH OPERATORS IMMINENT.

Men Want an Increase of Wages and Mine Owners Will Endeavor to Checkmate Them With a Demand for Lowering the Scale.

Indianapolis, Jan. 20.—Nearly 1,000 members of the United Mine Workers of America arrived here for their thirteenth annual convention, which began Monday forenoon in Tomlinson hall. It is confidently expected by President Mitchell, Secretary Wilson and other officials that it will be the largest convention ever held by union laborers. Delegates are here from 24 states, representing every bituminous and anthracite coal field in the United States. Ben Tillett, the famous British labor leader who is in this country studying labor conditions, arrived to be the guest of President Mitchell and the miners' union Wednesday or Thursday. His address will be one of the features of the convention. The convention will continue until Jan. 20, when the joint conference of the operators of Ohio, Pennsylvania, Illinois and Indiana will begin. This conference will probably last ten days.

It is the understanding that the delegates are preparing to ask for an advance that will be equivalent to an all-round increase of at least 10 per cent. Along with this report, however, is another to the effect that many of the operators have determined to take a stand for a reduction of 10 per cent on the ground that they have had an unprofitable year, and that the prospects for the coming year are not bright enough to warrant even a continuation of the present scale. It is not believed though that there will be a lockout, as the miners and operators of the four states that sign the competitive scale were able to reach an agreement during the past year without trouble.

The Central Labor union has made preparations to entertain the miners with a banquet in Tomlinson hall the night of Jan. 30.

The convention was called to order by President Mitchell, and after the delegates were seated the report of the credentials committee was called for.

As soon as the call was read Mr. Russell, a delegate from Illinois, presented Mr. Mitchell a gavel made from wood taken from the old Lincoln home-stand at Springfield, Ills. The gavel was bound with the national colors. President Mitchell responded briefly.

Mayor Bookwalter was introduced, and welcomed the delegates.

Ben Tillett, as "the leader of the wharf and dock workers of Great Britain," was received with enthusiasm. He said labor should meet capital in the way capital approached labor.

Ohio Miners' Defense Fund.

Columbus, O., Jan. 20.—The miners of Ohio have adopted a resolution assessing all of its members one-half of 1 per cent. It is estimated that this will raise a defense fund of about \$50,000 per annum. It was stated that this fund will be used to fight the DeArmits in Belmont county and the operators in the Jackson county district on the day labor question. The convention completed its labors and left for Indianapolis to attend the national Mine Workers' convention.

Kern Identified.

New York, Jan. 20.—Extradition papers for Kern, who is under arrest at New Orleans for the theft of jewelry from the residence of Paul C. Theband of this city, are being prepared. Captain Titus of the detective force says no reward has been offered for the arrest of Kern, although Mr. Theband was about to make such an offer, when most of the stolen jewels were found here. T. E. Manners has been identified by Mr. Theband at New Orleans as his valet, Edward Kern, Jr., and also all the jewelry found on him.

A False Report.

London, Jan. 20.—Officials of the Indian office here declare that there is no truth in report from Odessa that a native uprising occurred at Nasirabad, in the Ajmere district of India. The report alleged that the British troops were defeated in three different engagements.

Two Trains on Same Track.

Kansas City, Jan. 20.—Westbound Missouri Pacific passenger train No. 3, from St. Louis, collided head on with an eastbound freight train one mile east of Etah. But one passenger was injured. The wreck proved a costly disaster for the road.

Unnecessary Denial.

London, Jan. 20.—The colonial secretary, Mr. Chamberlain, in the house of commons, said there was no foundation for the reports that overtures for peace in South Africa had been made by Boer envoys.

THE promised sensation in the Jim Howard trial at Frankfort Monday failed to materialize. The talk was probably a grand stand play by defendant's attorneys to create the impression that he is not the guilty party, but it won't work.

HERE are some insignificant points Jim Howard has failed to explain:

Why he came to Frankfort, a stranger and alone, to seek a pardon from a Governor he did not know.

Why he was allowed to pass the guards at the Capitol grounds, where, he said, he had no friends, when no one else was admitted without a written permit.

Why he slept in the Agricultural building on the night of the shooting, when he was a guest at the Board of Trade Hotel.

Howard admitted to conversations with Culton, Golden, Stubblefield, W. H. Baird and other material witnesses for the State, at the times and places indicated by them, but denied all parts of the conversations which were damaging to him.

ONE J. B. Mathews, who was Assistant Secretary of State under Caleb Powers, was put on the stand at Frankfort Monday by Jim Howard's lawyers. On his cross examination Mathews admitted he had told the Franklin County grand jury that Caleb Powers had said he gave Yontsey a key to the Secretary of State's office. Witness said Powers denied this on the stand, but witness supposed Powers thought himself justified in swearing to a lie.

Such is the estimate placed upon Powers by a Republican, by one who was formerly Assistant Secretary of State under Mr. Powers. And this is the individual whom a lot of Republicans profess to want to see get justice. If justice were dealt out to Powers, he would swing from the gallows.

RICHEST NATION

In the World is the United States, With a Wealth of \$81,750,000,000.

[Harper's Weekly.]

Some interesting statistics have been prepared by the United States Bureau of Statistics for the London Daily Mail Year-Book. They are very far from being exhaustive or contributions to the discussion now going on over the enormous balance apparently due us from foreign countries as the result of the commerce of the last ten years. They are interesting and important, however, as far as they go. They put the United States at the head of the nations in point of wealth, estimating our property at \$81,750,000,000, that of the United Kingdom at \$59,000,000,000, that of France at \$48,000,000,000, that of Germany at \$40,000,000,000, and that of Russia at \$32,000,000,000. At the same time our public debt is the smallest, and that of France is the largest. The percentage of debt to wealth is also the lowest in the United States, being 14, while the percentage of debt to wealth in France is 12.3; in Russia, 11.1; in Germany, 8.1. It is very clear that we can go on spending money for a good many years without incurring a debt as great as that of the United Kingdom, for example, which is the next smallest to our own, but is still \$2,150,000,000 in excess of ours.

The remainder of the table shows that our wheat crop in 1901 was nearly 450,000,000 bush. in excess of the crop of Russia, which is our nearest competitor, but produces less than half our own product. In 1900 we made about 5,000,000 more tons of pig iron than were made in the United Kingdom, and nearly 6,000,000 more tons of steel.

How About Theodore "Mugwump" Roosevelt?
 [Mt. Olive Advance.]

Editor Tom Davis of the Maysville Ledger has been running ex-Gov. Bradley's electro top column next to reading matter for the last two months. Now Col. Tom has gone to Washington to get the Maysville postoffice. Of course there can be no connection between the two incidents.

At the meeting of the creditors of the Tiger Shoe Manufacturing Company Monday, Mr. Harry Walsh was appointed trustee. Parties are ready to buy the factory, and the probability is that it will resume operations soon.

A Great Event

Begin here Wednesday morning. Stock-taking is just completed and the time has arrived when our recollection of cost gets hazy. We have forgotten the word profit exists. That explains some of the quotations below. Another reason for reductions—room, room is the cry in our dress goods section. Off with the old, on with the new. Not old in style, nor time as counted by the calendar. Many materials as pretty as the new sorts will be, but we have had them a season and to rightly welcome the coming, we must speed the staying stuffs. The King is dead—long live the King.

Exquisite SILKS.

Mostly fancies, a few plain colors, checks, plaids, stripes, polka dots and printed effects. Foulards, Taffetas, Kaikai, Pean De Le Vants, Surahs, Satins. Waists, Skirts and entire dress lengths. The profits are yours, measure them by these prices: \$1½ and \$2 Silks 50c. \$1 Silks 35c. 80c. Silks 25c. These are the biggest silk values ever offered in our fifty years merchandizing.

Sharp Facts About the WOOL GOODS.

To appreciate the quality of our goods and the price we want you first to study our recommendations. We refer you to any and every woman who has bought a dress here this or any previous season. We refer you to every first-class dressmaker in Maysville. All will say for excellence of texture, taste in design, newness in style and inexpensiveness of price our dress goods is unequalled. With this introduction you can appreciate what follows:

TIED ITSELF UP

Has the Court of Appeals on the Pratt-Breckinridge Case by Decision in Another Suit.

FRANKFORT, Ky., January 17.—The Kentucky Court of Appeals, according to the lawyers, has reversed itself again and tied itself into a knot as it were on the Pratt-Breckinridge Attorney-General opinion.

In an opinion delivered Wednesday in the case of Tousey vs. Stites, the court holds that county election boards have judicial functions to perform. As the county boards are appointed by the State Board, then how can a county board's act be legal and the State Board's illegal? is the question asked by the lawyers. Attorneys Hazelrigg, Pryor and Chennault have filed a supplemental petition for rehearing in the Pratt-Breckinridge case, citing the Tousey-Stites opinion, and in which they ask the court these pertinent questions:

"Can judicial power be assumed to be in county contest boards and not in State contest boards?"

"Mr. Mackoy, in open court, has recently filed an important election contest case from the Covington district. Will the court try the case on its merits, and thus again recognize the right of the contest board to exercise judicial power, as the court has done for a dozen years in a dozen or more cases, and as it did on the 15th of January, 1902, or will the court dismiss for want of jurisdiction and treat the case differently from the multitude of other cases just like it?"

BIG SUM FOR STATE.

Capt. Calhoun Still at Work on the Claims Against the Federal Government.

LEXINGTON, Ky., Jan. 18.—Capt. C. C. Calhoun returned to-day from Washington, where he filed a large claim against the Federal Government due the State and Kentucky soldiers individually. He says there is the best assurance that Kentucky will receive half a million dollars on her Civil war claim. For the first installment of the Spanish-American war claim, amounting to \$84,000, he filed a detailed statement, and he will begin at once to work up a detailed statement for the second installment of about \$103,000. He says it is practically certain that the entire Spanish-American war claim of \$184,000 will be allowed. This will be divided among about 4,000 soldiers.

THE BEE HIVE

Sale Starts Tuesday! Sale Starts Tuesday!

A Remnant Sale!

We are taking stock. Taking stock at the Bee Hive is different from any other store. Our stock-taking is house-cleaning. Some stores think dusting off goods is house-cleaning. We don't! House-cleaning with us means every nook and corner in the store. It means getting out the short pieces that were put aside for full pieces during the rush. It means finding soiled goods that made room for clean ones during the rush. In fact it means house-cleaning as only housekeepers and the Bee Hive know how. To give all an equal chance, we will start this sale on Tuesday morning at 9 o'clock. ONE THOUSAND REMNANTS, consisting of Linens, White Goods, White Lawns, White Domestics, Dress Goods, Dress Gingham, Calicoes, Embroideries, Laces, Ribbons, Outings, Crashes, Percales, Silks, Crossbar Muslin, Chambray Gingham, Eiderdown, Velvets—none over ten yards, most of same two to four yards.

Death's Shadow Has Fallen Heavily on the Fleming Home at Pleasant Valley.

Mention was made a few days ago of the death of Mr. Watson Fleming of Pleasant Valley, Nicholas County, a brother of Mrs. C. W. Darnall of this city.

Last Saturday night Mr. Fleming's fourteen-year-old son passed away, and this morning a message brought the sad news of the death of Mrs. Fleming, sometime last night.

All fell victims to attacks of pneumonia. Their deaths leave but one member of the family surviving, a child sixteen months of age.

FORMER MAYSVILLIAN.

Mr. Crit S. Leach, Jr. To Engage in Business at Louisville.

[Chattanooga News, Jan. 17.]

Mr. Crit S. Leach, Jr., who for a year and a half has held the position in Chattanooga of contracting freight agent of the Clyde line, has tendered his resignation to Mr. H. E. Maynard, general agent of the company, in New York City, to take effect February 1. Mr. Leach resigns his position to accept one as manager of the Coca-Cola Bottling Company, of Louisville, Ky. Mr. Leach will not give up his permanent residence in this city, but will consider Chattanooga his home, and it will be with regret that the many friends of this popular young man in Chattanooga learn of his removal from the city.

Mr. Leach accepted the position of contracting agent of the Clyde line a year and a half ago when they first opened their offices in Chattanooga. By his hard and persistent work for the Clyde line he has secured for them a very large share of the freight business in this territory. In fact it is known that a majority of the perishable goods going from the east to this section has been handled by the Clyde line through the personal efforts of Mr. Leach. The Clyde line will lose one of its very best contracting agents and it is with deep regret that they see him leave their employ.

"Lovers' Lane" will be presented under William A. Brady's direction at the opera house, matinee and night, on Saturday, January 25th. It depicts with satirical touch the oddities of social and church life in a small New England town. Among those who interpret the humor and sentiment are a young village clergyman, sincere and earnest, but unconventional in his methods; the store-keeper, the shrewish school mistress, members of the church choir, a local opera house manager who poats his own hills and leads his own orchestra, and a couple of aged pensioners upon the parson's bounty, who dwell under his roof and decide to marry that he may have the use of another room. Mr. Brady presents "Lovers' Lane" with a splendid cast, and most careful attention to stage and electrical effects.

If you want to purchase the purest and best goods on earth go to G. W. I. sweet, Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

Addresses will be delivered by Grand Master Cole, of this city, and Past Grand Master John S. Gaunt, of Carrollton.

Don't miss it whatever you may do. Mark the date on your calendar lest you overlook it. If you do your neighbors will have the laugh on you. Why? Because you didn't go. Where? To the Old Maids convention at the opera house. What is it? The funniest thing on earth. Say, tell me when is it? Feb. 24th. Now don't say I didn't tell you.

Next Sunday will be Mission Day at the First Baptist Church. There will be a missionary sermon in the morning, a mass meeting at 3 p. m. and at night. At the afternoon meeting Mrs. Dr. J. M. Judge and Miss Allie Baker Alexander will read papers, and at night Dr. J. G. Bow, of Louisville, will deliver an address. There will be special music. No public collection. All cordially invited.

"HOGGING" RURAL DELIVERY.

Democratic States Getting Few Favors From the Postoffice Department.

[Washington Special to Courier-Journal.]

To the man up a tree it does not look like Superintendent Machen, in charge of the rural deliveries of the mail, is "toting fair" with Kentucky and other Southern States. His establishment daily of hundreds of new routes in Ohio, Indiana, Illinois and other Northern States and few, if any, in Democratic States, refutes the statement that there is "no politics" in the establishment of these rural routes. The record shows up to the present time that a Republican Representative of the House has been given five routes to one for a Democratic Representative. Again it is a notorious fact that the carriers of these routes recommended by Republican Congressmen are appointed, but nearly, if not all, of the names of carriers submitted by Democrats are turned down. Superintendent Machen may be making a "record" for himself in the Republican party, but he is dealing unfairly with the people at large and playing the partisan without cause or reason.

FREE PUBLIC LIBRARIES.

Bill Pending to Empower Cities to Levy a Tax to Establish Such Institutions.

A bill that is meeting with favor among those who have examined its provisions is one introduced last week by Senator J. Embury Allen, of Fayette, to create a Free Library Commission of five members to be appointed by the Governor.

The duties of the commission would be to advise with persons in communities where efforts are being made to establish free libraries.

The bill also proposes to enable cities of the third, fourth, fifth and sixth classes to levy a tax to establish free libraries. It does not provide for salaries for the commissioners.

It is believed that such a commission would be of incalculable benefit in making suggestions and otherwise aiding in the establishment of libraries throughout the State.

At a meeting of the Executive Committee of Kentucky University, the resignations of ex-President Charles Louis Loos, Professor of the Greek language and literature, and Prof. R. H. Ellett, A. M., teacher of mathematics and astronomy, were received to take effect at the end of the present session. Ex-President Loos will probably take a position offered him in the College of the Bible, while Prof. Ellett has decided to devote his time in the future to the ministry.

Lord Overton, the millionaire peer of Glasgow, has conducted a Bible class of about 500 young men in Glasgow for more than thirty years, and as a preacher and evangelist he is much in demand. He is specially interested in everything that has to do with the well-being of young men, and among other things he pays a well-known Scotch minister \$5,000 a year to devote himself to the work of an evangelist.

MAYSVILLE, Jan. 20.—Died, Jan. 17th, Margaret, the bright little daughter of Mr. and Mrs. James Slatery. She had been ill but six days with scarlet fever, and everything that love could suggest was done to save her, but God in His wisdom thought best to claim the tiny jewel, whose radiance had brightened the lives of parents and friends for five brief years. "He giveth and He taketh away," and so when the summons comes the hand of man is powerless to avert it for an instant, though it ruthlessly snaps asunder the heart strings and ties of affection which bind the spirit to earth. Mr. and Mrs. Slatery have the sympathy of a large concourse of friends, but why weep when the assurance is with us that another angel spirit answers "present" to the roll-call in heaven.

Mr. Cooper procured Doan's Kidney Pills for me at J. Jas. Wood & Son's drug store, corner of West Second and Market streets. They are worthy of the strongest indorsement."

Enjoy "A Bachelor's Honeymoon" To-night! The Portsmouth Blade of January 17th says:

"A Bachelor's Honeymoon" pleased a large audience at the Grand last night, if almost continuous laughter and applause were worth anything in the way of evidence. It was a straight-out farce comedy, of the "What Happened to Jones" variety, and quite as full of the most laughable situations, of which the most were made by the capable company. The roles were all well handled, especially those of the German doctor and Barbara, the maid, while Mr. Plunkett as "Benjamin Bachelor" was irresistibly funny. Everybody was well pleased with the production.

NAVAL BATTLE AT PANAMA.

Rebel Ships Tried to Force a Landing On Colombian Coast.

Colon, Colombia, Jan. 20.—A naval battle occurred in the harbor of Panama. The revolutionary fleet consisted of the steamers Padilla, Darlen and Galitan, which tried to force a landing off Sacana.

The government ships were the Chilean line steamer Lautaro, the Pacific Steam Navigation company's steamer Chicuto, and the Panama Canal company's steamer Boyaca. The first named steamer was seized by General Alban, and the other two boats have been chartered by the Colombian government. The guns at Las Boledas also fired at the rebel ships. The government forces threw up entrenchments near the beach.

The United States cruiser Philadelphia was close to the fighting.
